Clergy Ask State Department to Get Nuns and Priests Out of Vera Cruz.

MAY DELAY EVACUATION

Gen. Villa Wires His Thanks for that Order-Accepts Promotion from Carranza.

Members of the Roman Catholic clergy resterday appealed to the President and to the State Department on behalf of bout 400 Catholic priests and nuns who have taken refuge in Vera Crus. The refugees are greatly alarmed for their

own safety, if they remain in Vera Crus after the evacuation of that port by the United States forces.

Acting Secretary of State Lansing, who received these representations, requested that the statement be presented in writing. This will be done tomorrow by Father O'Hearn, of the Catholic University. Bishop Conaty, of California, formerly president of the Catholic University here, and Representative Kettner, of California, with Father O'Hearn, conof California, with Father O'Hearn, constituted the delegation.

It is asserted on behalf of the priests and nuns that they were driven to take refuge under the American flag at Vera Cruz as a result of the outrages com-mitted upon them and the properties of their orders during the fighting of the last six months.

This appeal brings again before the Washington government the question of the attitude of the constitutionalist forces toward the Catholic clergy in Mexico Villa's treatment of Spanish prices at Chihuahua and Torreon was in par-ticular the occasion of repeated representations both to him and Carranga last winter and spring. More recently the United States repeatedly urged Carranza to take steps to insure the protection of the property and persons of the clergy in Mexico. Only general assurances that all not engaged against the constitutionalist government would receive protection were received from Carranza. In the light Into Open Switch.

> Villa Accepts Promotion. It is understood that it is desired that the United States provide transportation out of Mexico for the priests and nuns. As a practical matter, it would be simple enough for the United States to put the refugee clergy on a transport and send them to Galveston, but it is doubted if the government will feel it can do so, because of the international phases of the situation: It was pointed out this afternoon that there is quite a difference between the United States taking Americans, its own citizens, out of Mex-ico and taking Mexicans out of that country. It is feared such action might raise all sorts of questions between Wash-

ngton and Mexico City. The belief prevails, however, that the vacuation of Vera Cruz will be sufficiently delayed to permit all the refugees in Vera Cruz getting away.

The President received yesterday from

Gen. Villa a message thanking him for his action in ordering the evacuation of Vera Cruz. It was noted that Villa signed himself "General-in-chief of the Division of the North," which is the first indication that he has accepted the promotion recently given him by Car-

One change in the section of the bill devoted to special taxes was made. Under the old law, a tax of \$50 was set upon bankers using or employing a capital not exceeding the sum of \$15,000, and \$12 per thousand upon the excess of that capitalization. The law of \$124 will provide a straight tax of \$2 per thousand of capitalization.
